Download as PDF. Using drones for agriculture is a hot topic these days, and for good reason.

Agricultural Drones: What Farmers Need to Know | Agribotix

A farmer (also called an agriculturer) is a person engaged in agriculture, raising living organisms for food or raw materials. The term usually applies to people who do some combination of raising field crops, orchards, vineyards, poultry, or other livestock. A farmer might own the farmed land or might work as a laborer on land owned by others, but in advanced economies, a farmer is usually a ...

Introduction. N2AFRICA is a large scale, science-based "research-in-development" project focused on putting nitrogen fixation to work for smallholder farmers growing legume crops in Africa.. Legumes bring atmospheric nitrogen into the crops and the soil through a symbiosis with Rhizobium bacteria, and they are an important source of protein in a healthy diet.
